wonder and respect for Hawaii's marine life.*

Maui Ocean Center Media Kit

A Description of "The Aquarium of Hawaii"

For over 20 years, Maui Ocean Center, The Aquarium of Hawaii has fostered understanding, wonder, and respect for Hawaii's marine life with visitors from around the world. Today, it is recognized as one of Maui's top-rated attractions and listed among the "Top 10 Aquariums in the World" by TripAdvisor's Travelers' Choice Awards.

Hawaii is one of the world's most isolated archipelagos steeped in unrivaled natural beauty and cultural heritage. Regarded as the global capital of endemism, nearly 25% of all marine animals in Hawaiian waters are found nowhere else in the world. Maui Ocean Center serves as a portal into this world beyond our own, providing visitors with an immersive journey through an underwater paradise.

Maui Ocean Center is home to one of the world's largest displays of live Pacific corals and exhibits only marine animals found in Hawaii. Descend from the colorful Living Reef exhibits to the vast 750,000-gallon Open Ocean exhibit on a journey where encounters with schooling reef fish, sharks, stingrays, turtles, and an incredible diversity of marine life await.

The relationship between the Hawaiians and the sea and messages of environmental conservation are cornerstones of the Maui Ocean Center story. The collective experience of native wildlife, local culture, and our social responsibility to be stewards of the sea is what defines Maui Ocean Center as "The Aquarium of Hawaii."

HIGHLIGHT OF EXHIBITS

COMING SOON - Humpbacks of Hawaii Exhibit & Sphere: The new, state-of-the-art Humpbacks of Hawaii Exhibit & Sphere is the first of its kind in Hawaii. The mystery and migration of humpback whales are presented through interactive exhibits, displays, and a virtual whale encounter in the Sphere theater. Humpback whales are brought to life through a virtual experience that utilizes the most advanced systems in lenses and seeming technology. The use of active 3D glasses and 4k imagery generated by multiple laser projects, backed by a dynamic 7.1 surround system, blurs the lines of reality and enables viewers to experience Maui's humpback whales in their own environment.

Living Reef: Home to one of the world's largest displays of live corals featuring shallow reef to deep reef habitats. Over 40 Hawaiian coral species are found throughout these exhibits. *All corals are alive and were acquired with permits from the State of Hawaii or raised from the Aquarium Lab.*

Turtle Lagoon: Behold ancient mariners that survived for millions of years, the Hawaiian green sea turtle. *All turtles are raised at Maui Ocean Center and released to the ocean through Sea Life Park's Hawaiian Green Sea Turtle Educational Loan Program.*

Hawaiians and the Sea: Visit early Hawaii and learn about ancient aquaculture systems, fishing implements, and the story of the Hawaiians' special connection to the sea.

Open Ocean: Glimpse into Hawaii's pelagic realm from a 240-degree view tunnel in a 750,000-gallon exhibit. Stand among hundreds of fish, up to six shark species, and stingrays in the Aquarium's largest exhibit.

POPULAR PRESENTATIONS

View presentation listings at mauioceancenter.com/schedule-calendar. Schedule subject to change. All presentations are included with Aquarium admission.

Shallow Reef: A marine naturalist describes inshore habitats while identifying coral and reef fish species in a remarkable, 50,000-gallon exhibit.

Open Ocean Dive Presentation: Aquarium divers enter the 750,000-gallon exhibit to talk about the sharks, rays, and fish found in open ocean environments. Specialized masks allow divers to communicate with the audience.

Turtle-riffic Tuesday: A veterinarian and team of aquarists conduct the Hawaiian green sea turtles' routine health examination, enabling guests to see the turtles up-close.

Turtle Lagoon: Learn about the Hawaiian green sea turtle with a chance to view a live feeding.

Wet Naturalist: An interactive experience with a marine naturalist presenting from within the outdoor Discovery Pool or Surge Zone. See, touch, and learn about various tide pool animals.

Story Time & Crafts: Perfect for children ages 3-12, join a marine naturalist for an ocean-themed story time and craft hour.
